Auburn University
Department of Computer Science and Software Engineering
Full-Time Lecturer Position

The Department of Computer Science and Software Engineering (CSSE) invites applications for a full-time lecturer position to begin in Spring 2016 or Fall 2016. The appointment is for 9 months and is renewable annually. The primary responsibility of a successful candidate for this position is to teach a selection of CSSE service courses (e.g., programming courses in C, C++, and MATLAB). Other teaching duties may be assigned as needed, including in-major courses for CSSE students. Summer teaching will be subject to the availability of funds. The successful candidate will be expected to bring experience, innovation, and enthusiasm to CSSE teaching programs. Under typical circumstances, the teaching load will be three courses per semester, which includes course and laboratory development and management activities. Salary will be commensurate with the candidate's qualifications.

A successful candidate must possess a master’s degree or higher in computer science, software engineering, or a closely related field from an ABET accredited institution prior to the date of appointment. While not mandatory, industrial or teaching experience will be valued in the review process. Excellent communication skills are required. We encourage candidates from all areas of computer science and software engineering to apply.

The CSSE Department currently has 17 full-time tenure-track faculty members and one full-time lecturer. The department supports strong graduate (M.S., M.Sw.E., Ph.D.) and undergraduate programs in computer science, software engineering, and wireless engineering, as well as vibrant research programs in computing and software engineering. CSSE enrollment for Fall 2014 is 625 undergraduate and 110 graduate students. Faculty research areas include cyber security, high performance computing, computer and communication networks, human-computer interaction, pervasive computing, artificial intelligence, database systems, modeling and simulation, programming languages, software engineering, and wireless engineering. Additional information about the Department and faculty research interests can be found at the Department's home page (http://www.eng.auburn.edu/csse).

Auburn University was chartered in 1856 and was designated a land grant institution in 1872. The official Fall 2014 enrollment is more than 25,000 students. The College of Engineering has an enrollment of more than 4600 undergraduates and approximately 920 graduate students in eight departments. The 2014 edition of the U.S. News and World Report ratings of undergraduate and graduate programs ranks Auburn’s programs 28th and 37th among public universities, respectively.

Auburn University is located in Auburn, Alabama, approximately 100 miles southwest of Atlanta and 50 miles northeast of Montgomery, the State Capitol. The picturesque main campus covers 1,875 acres, and includes the entire southwest quadrant of the city of Auburn. The Auburn-
Opelika community has a population of approximately 100,000, boasts an excellent public school system, and has been nationally ranked as one of the "best small towns in America".

Applicants should apply by submitting a cover letter, current curriculum vita, teaching philosophy, and three references to:

The applicant review process will begin October 1, 2015 and continue until a successful candidate has been identified.

The candidate selected for this position must be able to meet eligibility requirements to work in the United States at the time of appointment and is scheduled to begin and continue working legally for the proposed term of employment.

Auburn University is an EEO/Vet/Disability Employer.
