The AEP Engineering Learning Community is a unique academic opportunity for first-year Auburn students. Up to 20 students can participate. Participants will enroll together in the following courses for the Fall 2019 and Spring 2020 academic year.

Learning Community Cohorts 2017-2018

By participating in AEP Engineering Learning Community, students connect to a small community of faculty, staff and peer instructors help connect students with campus resources early on to support student success. As part of the AEP Engineering Learning Community, students are expected to participate in a minimum of five hours worth of AEP programs and activities per week.

To APPLY for a seat in an AEP Engineering Learning Community, complete the information at this link: aub.ie/AEPLC

APPLICATION CHECKLIST

To APPLY for the AEP Summer Engineering Enrichment Program at: aub.ie/STEMSummerBridge

As part of the AEP Engineering Learning Community, students are expected to participate in a minimum of five hours worth of AEP programs and activities per week.
The Academic Excellence Program (AEP), an academic and professional development support program sponsored by Alabama Power, enhances the recruitment and retention of underrepresented students at Auburn University’s Samuel Ginn College of Engineering through a wide range of programs and activities.

The AEP supports participants from pre-college through graduation by facilitating expanded academic preparation, professional readiness and career path exploration in a community oriented learning environment. Launched in 1996, AEP plays a vital role in promoting diversity among Auburn’s student body. Participants have received opportunities for scholarships, academic support, career readiness, mentoring, networking and employment.

You Belong at Auburn!
