From under the sea to outer space to cyberspace, we see it all. From sensors to surveillance, training to defense, we’re creating new ways to monitor, track, and respond to threats 24/7—so the rest of the world can sleep a little more soundly.

Join us, and you’ll work with a variety of advanced electronics for national security and non-defense applications. You’ll harness the power of high-performance sensors and intelligence processing and navigation systems designed to operate in all kinds of environments. And you’ll be supported by training, employee resource groups, and our shared vision of global security.

Across our career areas and around the globe, we see the value of our performance every day. We are Northrop Grumman. And remaining vigilant is at the heart of what we do.
