Homework Completion Guidelines

1. Homework problems must be turned in for grading on engineering paper (either green or yellow).
2. Your name must be in the upper left hand corner of the first page.
3. The page number must be in the upper right hand corner of the page.
4. Each problem must be started on a new page.
5. The pages must be stapled together in the upper left hand corner.
6. It is NOT necessary to restate the problem description on your homework.
7. All straight lines must be drawn with a straight edge.
8. A labeled, coordinate system (2D or 3D) must be included on each problem.
9. All final answers must have the appropriate engineering units and be circled or boxed.
10. All written equations must be oriented horizontally.
11. All written work must be sized to be read without the need of a magnifying glass.
12. TURN IN YOUR OWN WORK! Identical solutions will result in zero points for all parties.

Homework Grading Guidelines

1. Assignments will be made on a weekly basis.
2. Most assignments will consist of 4 problems.
3. All assigned homework problems must be turned in for full credit.
4. One problem will be graded out of each assignment.
5. Approximately 13 homework assignments per semester.
