 - b. Submitting Individual Files (Example: Activity 1)
 - c. Submitting a Project to Web-CAT
 - d. Submitting in Web-CAT / Late Work
 3. Checking your Grades / Project Feedback
-

1. Logging into Web-CAT

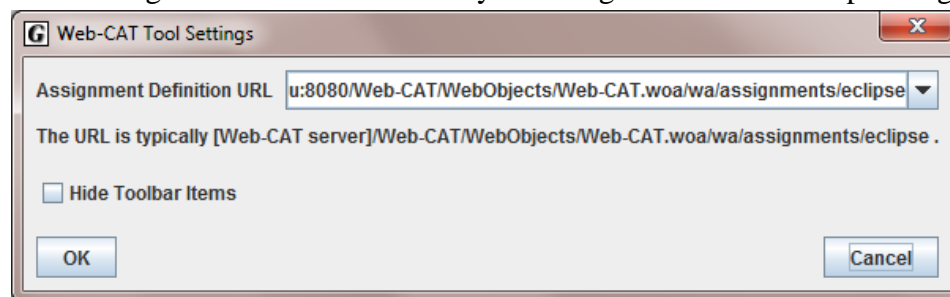

Open a web browser (Firefox is the most compatible with Web-CAT) and navigate to <http://webcat.eng.auburn.edu:8080/Web-CAT/WebObjects/Web-CAT.woa>. If you do not know your password, click the “Forgot your password?” link and enter your AU e-mail address. If you do not receive an e-mail, contact gofflau@auburn.edu to be entered into the system.

2. Submitting Projects via jGRASP**a. Configuring Web-CAT**

Copy the following link by selecting the link and pressing ctrl+c:

<http://webcat.eng.auburn.edu:8080/Web-CAT/WebObjects/Web-CAT.woa/wa/assignments/eclipse>

In jGRASP, navigate to Tools → Web-CAT → Configure. Copy the link address as the Assignment Definition URL by selecting the text field and pressing ctrl+v.

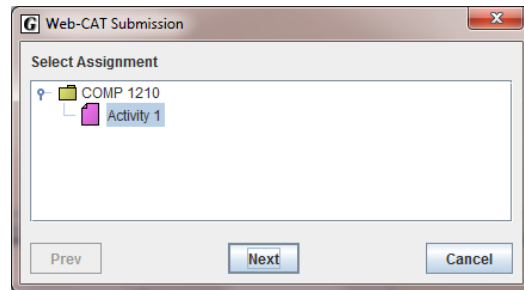

The Web-CAT button  should now appear above the program that you have open or in the projects directory to the bottom left.

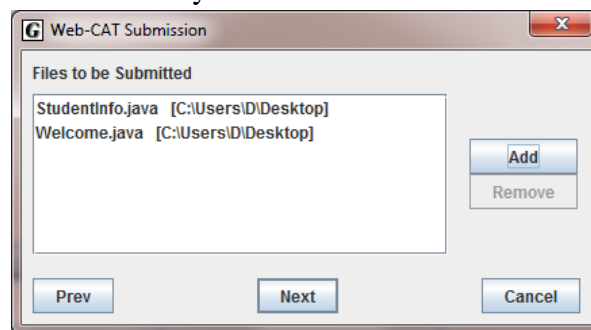

b. Submitting Individual Files (Example: Activity 1)

In order to submit files that are not included in a project file to jGRASP, open the source code and then press the Web-CAT button above the code in Web-CAT.

Select the appropriate submission and click Next:

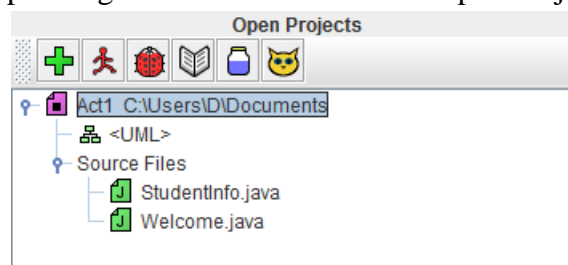

If you need to submit another file, click the add button on the right and add any additional files by double-clicking the .java files. Press Done when you have selected all of your files:

Press Next, type in your Web-CAT username / password and press Submit.

c. Submitting a Project to Web-CAT

If your source code files are all in a project, you can submit the entire project in jGRASP by opening the project, selecting the project in Open Projects, and pressing the Web-CAT button in Open Projects.

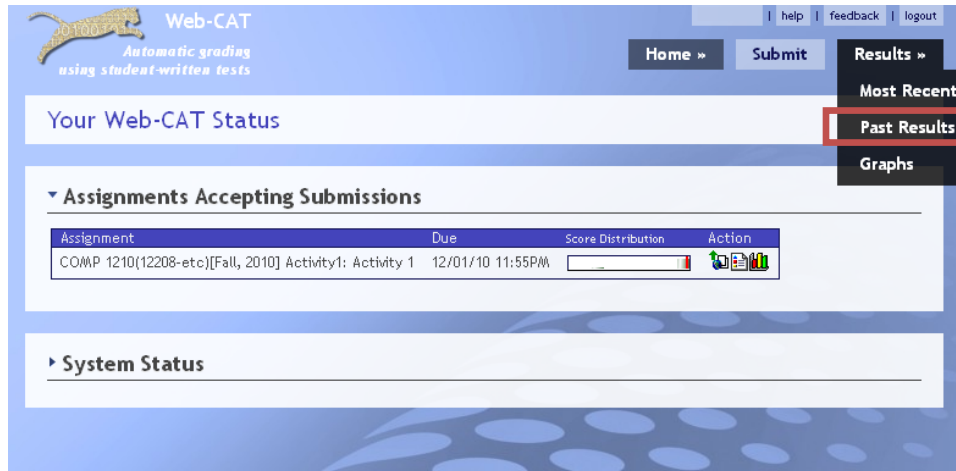

d. Submitting in Web-CAT / Late Work

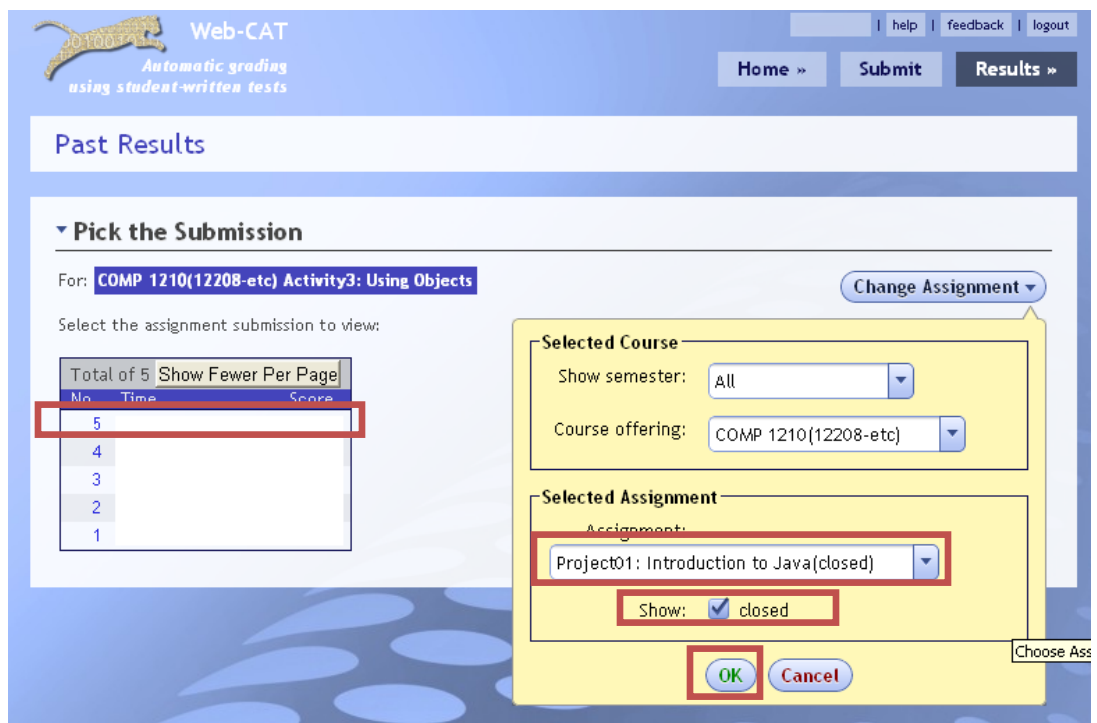

Create a project file in jGRASP and add all of your files. Select the project and navigate to Project → Create JAR or Zip File For Project. Select Zip File as archive type and then press Create Zip. **If you are submitting late work with an AU-valid excuse, send your zip file to gofflau@auburn.edu within a week of the due date.** If you are submitting through Web-CAT, navigate to Submit, change the assignment, and choose your zip file for submission.

3. Checking your Grades / Project Feedback

First, log into Web-CAT by visiting <http://webcat.eng.auburn.edu:8080/Web-CAT> and entering your AU user name and Web-CAT password. In Web-CAT, navigate to Results -> Past Results.

Next, press the “Change Assignment” button to the right-hand side of the screen. Make sure that the “closed” option is checked, and select the assignment that you would like to view.

Once you have reached the appropriate project, select your latest submission (the top submission of the list). Under Result Summary click the “Full Printable Report” button. You should now be able to view both the instructor feedback and the source file that you submitted.
