Re: Driving to the Track

We are excited about our work on the cooperative research project at the NCAT Pavement Test Track, and we enjoy sharing our experiences with interested parties. The Track is located on 309 acres in a remote area just to the southeast of the City of Opelika in eastern Alabama. We are providing you with this map to make it easier for you to find us.

When driving in on I-85 (traveling from either Montgomery, AL or Atlanta, GA), get off the interstate at Alabama's exit 62 (near mile marker 62) and travel east on US 280. Drive 4.4 miles, then turn to the right onto Lee Road 391. Drive 1.7 miles, then turn to the left onto Lee Road 151. You will reach the main entrance to the Track (on the right) after traveling 1.5 miles. Turn right into the gate and enter the parking area after traveling only about 0.2 miles. Please check in at the office when you arrive. To help you navigate, ALDOT has posted directional signs from both I-85 and US 280 West all the way to the main gate.

If you are traveling from the Auburn University Conference Center, turn left from the hotel parking lot and follow University Boulevard all the way to the interstate (I-85). Turn left onto I-85 North and you'll encounter exit 62 after approximately 10 miles. Have a safe trip!
