QUICK SUMMARY OF PROGRAMMING STRUCTURES

IF Statement (One-Line)

If condition Then statement1 [Else statement2]

IF Statement (Multi-Line)

If condition Then
codeblock1
[ ElseIf
codeblock2 ]
[ Else
codeblock3 ]
End If

CASE Statement

Select Case testexpression
 Case expression1
codeblock1
 Case expression2
codeblock2
 Case expressionN
codeblockN
[ Case Else
codeblockX ]
End Select

FOR Statement

For counter = start To end [Step increment]
codeblock
Next counter

WHILE Statement

Do While condition
codeblock
Loop

UNTIL Statement

Do
codeblock
Loop Until condition
