INDEX

single-weight set, 510
singly-testable path-delay fault, 420
singly-untestable path, 426
singleshot test, 510
singly-testable path-delay fault, 420
singly-untestable path, 426
sink node, 407
Sivaraman, 624
six sigma, 439
six sigma quality, 491
skewed-load delay test, 431
SL switch, 583
slave, 212
sleeping sickness, 295
slew limiting, 362
SLIC, 366
slow clock test, 11
slow-clock delay testing, 432
Smith, 422
SMT, 491, 551, 605
Snethen, 219
SNPSF, 258, 273, 287, 536
SOAF, 258
SOC, 15, 386, 605, 611, 613
SOCRATES, 197, 204
soft core, 606
soft fault, 387
soft fault test, 308
SOFTG, 219
SOI, 256
solder bump, 549
Soma, 386, 622
Somenzi, 625
Souers, 335
source event, 102
source node, 407
source stepping, 393
spare column, 257
spare row, 257
sparkle code, 327
spatial sampling, 381
specialization, 41
specification, 4, 6, 7
specification testing, 380
specification-based test, 312
spectra, 341
spectral component, 342
spectral image, 354
spectral line power, 349
spectral mirror image, 351
speed binning, 21
spike suppression, 127
SPLIT data structure, 221
spot delay defect, 435
SRAM, 253
SRU, 596
SSQ, 349, 381
stacked capacitor, 256
STAFAN, 125
Stahmek, 619
staircasing, 320
STALLION, 222
standard cell, 475
standard cell library, 94
standard deviation, 360
standard LFSR, 503
standard test interface language, 607
standby current test, 305
STAR-BIST, 412
star fault, 64, 66
state coupling fault, 258, 271
state observation, 212
state transition graph, 222
statement coverage, 60, 597
static analog test, 398
static analysis, 129
static burn-in, 44
static compaction, 205
static differential linearity, 323
static electrical discharge, 260
static integral linearity, 323
static learning, 197
static neighborhood pattern sensitive fault, 258, 273, 536
static path sensitization, 420
static RAM, 253
static testing, 435
static timing analysis, 434
statistical fault analysis, 125
statistical sampling, 381
statistically independent signals, 348
statistically orthogonal signals, 348
steady state, 14
STEED, 222
STG, 222
STIL, 607
Stoffel, 626
STRATEGATE, 247
stratified sampling, 125
strobe time, 26
Stojews, 624, 627
Strojwas, 534, 624
structural analog circuit test, 406
structural fault, 67
structural test, 59, 78, 155, 156, 386
structural view, 389
structure graph, 480
structured DFT, 467
stuck-at fault, 65, 67, 156, 258, 267
stuck-closed fault, 68, 446
stuck-open fault, 14, 68
stuck-open address decoder fault, 258
stuck-open fault, 67, 444
stuck-open transistor, 448
stuck-short fault, 67, 70
STUMPS, 522
sub-threshold conduction, 440, 455
sub-threshold conduction leakage, 459
subscriber loop, 306
subscriber loop interface circuit, 306
substrate coupling noise, 380
Suk, 263
