Local and Tribal Roads

75%

3x

The backbone of our nation's transportation system: more than 75% of all roads are maintained by local agencies.

In Tribal areas, there is an annual average of 655 traffic fatalities.

Local roads experience 3x the fatality rate of the Interstate Highway System.

Local and tribal agency staff are spread thin, with many roles and responsibilities.

Local and tribal roads are diverse in safety concerns, operations, infrastructure, etc., making it difficult for Federal and State agencies to aid all local and tribal agencies.

Purpose

Connects local and tribal agencies with expert Mentors to help resolve local and tribal road safety related issues.

Why Participate as a **Mentee**?

Learn from and build on previous experience from peers who have faced similar issues on similar roadway types and successfully mitigated those issues.

Saves time and money by eliminating the need to reinvent the wheel or use trial and error to address roadway safety challenges.

Why Participate as a **Mentor**?

Help save lives and reduce serious injuries due to roadway crashes.

Expand your professional network.

Learning goes both ways – potential to learn from the mentee.

If travel is required, FHWA will cover costs.

Mentee Expectations

Submit a request for technical assistance describing the need.

Meet with the assigned Mentor and be open to ideas and suggestions.

Complete a report template summarizing the mentoring activities and providing feedback on the experience.

Mentor Expectations
