

Hyperref for PDF Links HW

Alexander H. Pfeifferberger

July 21, 2010

Hyperref Homework Assignment

1. Using any document format and source database write a few sentences with in-text citations. Verify that these citations link to your bibliography.
2. Create a set (four total) of links using `\hyperlink` and `\hypertarget` that will bounce you between two pages (Link A1 takes you to target A2 and Link B1 takes you to B2. A1 & B2 on the same page and A2 & B1 on the same page).
3. Create four labels, with only the first two acting as links, reference all four from a separate page/frame.
